Type of Review: Revision of an information collection

Background: The Federal Register Notice with a 60-day comment period soliciting comments on the following collection of information was published on December 26, 2019 (2019-27707). This notice

includes an updated burden analysis. The Pilot Records Improvement Act of 1996 (PRIA) as amended, was enacted to ensure that part 121, 125 and 135 air carriers and air operators adequately investigate a pilot's background before allowing that pilot to conduct commercial air carrier flights for their company. Under PRIA, a hiring employer cannot place a pilot into service until they obtain, review and approve the pilot's background and other safety-related records for the past 5 year period as specified in PRIA. The FAA information disclosed under PRIA are medical and airman certificate verifications as well as any closed enforcement and revocation data. The air carrier information disclosed under PRIA are those concerning pilot performance and training, disciplinary actions and removal from service, and drug and alcohol testing records. Records from the Department of Motor Vehicles of any particular State would include records of drug and alcohol convictions. PRIA request forms can be received by fax or mail; however, the most common method is by email attachment, one pilot/applicant per form. Each 8060-10 form will include all information needed to process the requested PRIA report. FAA Form 8060-xx is being added to this collection to allow pilots to release their FAA records to a hiring aviation employer when they cannot release the records themselves via the PRD web site. Use of FAA Form 8060-xx is not required if FAA Form 8060-10 is used or if the pilot releases the records themselves via the PRD web site. The specific form number is not yet determined. In addition to the forms, information is collected via a website to allow interested persons to register in MyAccess. MyAccess is a user-management and identity verification service used to control who has access to the PRD.

Respondents: The PRIA representative at each part 121, 125 and 135 air carrier is responsible for completing, forwarding, receiving and providing the air carrier with the completed PRIA report so the air carrier can make a more informed hiring decision concerning each pilot/applicant. One complete PRIA package is required for every pilot/applicant. The FAA processes approximately 24,120 PRIA packages per year from respondents.

Frequency: On occasion.

Estimated Average Burden per Response: 2.13 hours

Estimated Total Annual Burden: 96,871 hours.

Issued in Oklahoma City, OK on February 25, 2020.
